**Subject:** RE: Sunnyside field work schedule

Did an attachment get scrubbed from the original e-mail? Supposed to be a schedule for field work for the remainder of 2015.

It was also in my junk mail. Darn those e-mail filters! To ensure that doesn't happen again, there is a way to tell the system that e-mail from this person is not junk. If you don't know how to do it, I can show you.

Subject: Sunnyside field work schedule

All,

As was requested in our call on July 31, attached is the proposed schedule for the remainder of Sunnyside Gold's remaining field work for 2015.

We are still working on our responses to your comments on the work plans and are striving to complete and transmit them by Monday, August 17.

If you have questions or require further information, please let me know.

Thanks,

Pat
